

PROFESSIONAL SALON & BEAUTY TRAINING CENTER

Comprehensive Training Curriculum & Learning Outcomes Guide

Program Overview

This course is designed to transform beginners into job-ready professional stylists, wig specialists, and makeup artists. Combining hands-on practice on mannequin heads and live models with essential theoretical knowledge, students master client relations, tool safety, professional styling techniques, and beauty business management.

COURSE CURRICULUM & LEARNING MODULES

MODULE 1: Sanitation, Safety & Client Consultation

Course Content Covered:

- Workplace hygiene, sterilization procedures, and Barbicide jar usage.
- Proper disinfection of shears, combs, hot tools, and makeup brushes.
- Scalp disorders, hair analysis, skin types, and allergy patch testing.
- Professional communication, client consultation techniques, and cape placement.

What Students Will Be Able to Do:

- Maintain a clean, safe, and fully compliant salon workspace according to health standards.
- Perform comprehensive hair, scalp, and skin assessments before treatments.
- Conduct professional client consultations and recommend tailored solutions confidently.

MODULE 2: Hair Washing, Treatments & Chemical Processing

Course Content Covered:

- Ergonomic shampoo basin techniques and scalp massage procedures.
- Application of deep conditioning treatments, protein therapies, and hair food products.
- Chemical hair relaxing techniques, neutralizers, and post-chemical care.
- Hair steaming methods and blow-drying techniques for different hair textures.

What Students Will Be Able to Do:

- Wash and treat natural hair effectively using correct water pressure and shampoo basin setup.
- Safely apply chemical relaxers and restorative deep-conditioning treatments without causing scalp burns or breakage.
- Blow-dry hair smooth and prep natural hair properly for protective styling.

MODULE 3: Hair Styling, Braiding & Hot Tool Mastery

Course Content Covered:

- Sectioning, parting accuracy, and precision comb work.
- Braiding styles: Box braids, knotless braids, cornrows, and feed-ins using synthetic hair extension attachments.
- Safe operation of hot comb machines, flat irons, and curling tongs.
- Silk presses, thermal straightening, and heat protection principles.

What Students Will Be Able to Do:

- Create clean, uniform partings and execute neat protective braid styles.
- Safely operate high-temperature thermal tools without damaging natural hair.
- Deliver smooth silk presses and lasting thermal styles for various client preferences.

MODULE 4: Wig Making, Customization & Installation

Course Content Covered:

- Wig cap sizing, track sewing, and full closure/frontal wig construction.
- Lace bleaching, plucking, tinting, and customizing lace frontals.
- Glued and glueless lace wig installation techniques.
- Wig maintenance, washing, revamping, and styling.

What Students Will Be Able to Do:

- Construct custom wigs from scratch using mannequin heads and sewing techniques.
- Customize lace to achieve a realistic, scalp-like hairline appearance.
- Perform flawless wig installations and educate clients on home wig care.

MODULE 5: Professional Makeup Artistry

Course Content Covered:

- Skin prep, color theory, foundation shade matching, and undertone identification.
- Eyebrow shaping, grooming, mapping, and filling.
- Eye makeup applications: Soft glam, full glam, cut crease, and false lash application.
- Contouring, highlighting, blush placement, and setting techniques for longevity.

What Students Will Be Able to Do:

- Match foundation perfectly across diverse skin tones and prepare skin for seamless application.
- Create complete makeup looks ranging from everyday natural glams to full bridal/event makeup.
- Apply false lashes and perform long-lasting setting routines for clients.

MODULE 6: Basic Nail Care & Polish Application

Course Content Covered:

- Nail hygiene, sanitation of manicure tools, and nail structure basics.
- Nail filing, shaping, cuticle care, and prep.
- Classic polish application, gel polish application, and basic nail art.

What Students Will Be Able to Do:

- Provide clean, basic manicures and neat polish applications to add value to salon service packages.

MODULE 7: Business Management, Photography & Client Retention

Course Content Covered:

- Pricing strategy for hair, wig, and makeup services.
- Using ring lights, mobile photography, and social media showcase (Instagram, TikTok, WhatsApp).
- Customer service excellence, booking systems, and building a loyal repeat clientele.

What Students Will Be Able to Do:

- Price services profitably based on product cost and time.
- Capture high-quality portfolio photos and videos using ring light setups to attract clients.
- Launch their own freelance business or step directly into full-time employment as a salon stylist.
